

Reborn Everyday With Hot Water

IF YOU'RE LOOKING FOR  
THE HOT WATER EXPERT,  
LOOK NO FURTHER.

The Ariston Group is an international company among the global specialists in water and environmental heating solutions. The group delivers an extensive range of innovative and energy-conscious products designed to improve and simplify home life all over the world.

Focusing on solutions that generate heat and hot water using renewable energy such as thermal solar and heat pumps, Ariston develops the most energy efficient technologies, constantly investing in the innovation of advanced connectivity systems that are accessible to all.

Housing 7,975 employees across 64 operating companies in 42 countries, with production, research and development taking place across 15 countries. In 2022, Ariston Group recorded a remarkable sale of 8 million products in over 166 countries.

Keeping home as the centre of the family, Ariston offers a full range of products, systems, and services – primarily under the brands Ariston, ELCO, Chaffoteaux, ATAG, Racold, Calorex, NTI, HTP, and Thermowatt – with a unified goal, to offer the optimal combination of enduring quality, renewable energy efficiency, and care for the home and planet.

**Reborn Everyday With Hot Water**

Racold is one of India's most trusted brands (as per Brand Trust Report 2016) and one of India's largest providers of water heating solutions, leading the industry for over 60 years.

A fully owned subsidiary of the Ariston Group – Italy the world leaders in water and environmental heating solutions, Racold brings international heritage and path-breaking technologies to India. Enhancing not only the aesthetics and performance, but the quality, safety, efficiency, and durability of the products as well.

Being the only brand in the water heating category that has won the prestigious BEE award an astounding 10 times, Racold has set the standard for energy efficiency within the category.

Racold is the only brand in the category to be selected as a Superbrand in 2019, 2021 and 2023. Our expertise is due to the unwavering commitment of our workforce to keep reimagining water heating as per your needs. So, for a quality water heating experience, look no further because the hot water experts are here.

## IF YOU'RE LOOKING FOR THE HOT WATER EXPERT, LOOK NO FURTHER.

Born from the house of Ariston, the global leaders in thermic comfort and energy efficient heating solutions, with an astounding international footprint spanning across 166 countries. Racold draws from a worldwide heritage making us the world's preferred partner in delivering the most energy efficient and renewable heating solutions.

Delivering breakthrough innovation, quality water heating solutions, and complete customer satisfaction for over 60 years.

Awarded 10 times by the Bureau of Energy Efficiency from 2010 - 2020, we place energy efficiency at the heart of our sustainable growth strategy and are deeply committed to energy conservation.

**Safety Foremost**

Racold Water Heaters have multiple measures of safety against high temperature and pressure. Our water heaters have a range of features that ensure thermal stability and safety for children and adults alike.

**IF YOU'RE LOOKING  
FOR THE HOT WATER EXPERT,  
LOOK NO FURTHER.**

## **STAY ASSURED FOR 7 YEARS**

Our 7-Year warranty is a special commitment to provide only the highest standard in water heating to you. We want you to be assured and have complete peace of mind when you choose Racold.

Racold is the only brand in the water heating category to be selected as a Superbrand for 2019, 2021 & 2023. It's a testimony of our continuous efforts and deep commitment to creating products that resonate with our customers.

**Selected  
Superbrand**

**Always At  
Your Service**

Our network of more than 1000 service technicians and over 400 service centers across the country are always at your service for any assistance. With our 24X7 WhatsApp Chatbot services and Customer Care services, it's very easy to reach out to us.

## OUR BEST-IN-CLASS INNOVATIONS

### VOICE CONTROL

Connect your water heater to Alexa or Google Assistant and control it using voice commands. Simply say "Alexa, turn on the geyser".

### AUTO POWER OFF

Schedule your water heater to turn off automatically at a pre-set time for added convenience and energy saving.

### SILVER ION TECHNOLOGY

The advanced technology effectively reduces bacterial growth, ensuring safe and healthy hot water.

### DIGITAL TOUCH CONTROL

Experience precise water temperature as per your need with the help of easy-to-control digital touch panel.

### FASTER HEATING\*

Say goodbye to running out of hot water quickly! Enjoy faster heating and consistent hot water with high powered heating element.

### TITANIUM PLUS TECHNOLOGY

The titanium enamel coating in the tank prevents corrosion by handling even the toughest water conditions, providing reliable and healthy water for years to come.

## OUR BEST-IN-CLASS INNOVATIONS

### AUTO DIAGNOSIS

The microprocessor in the water heater continuously monitors it and cuts off power in case of any malfunctioning, protecting you from shock or any mishap.

### CHILDREN CARE MODE

Ensures your child's safety against accidental exposure to extreme hot water with a pre-set safe temperature for a comfortable hot shower.

### CONSISTENT WARMTH\*

With advanced high powered heating elements, Racold water heaters deliver hot water consistently without interruption, so you can have a seamless bathing experience.

### MULTI-POINT USAGE\*

The perfect choice for all hot water needs in your modern home, select Racold water heaters are available with multi-point usage providing uninterrupted hot water whether it be in the bathroom or kitchen all from a single water heater.

### SMART LED RING

Don't keep guessing if your hot water is ready! The Smart LED Ring is Red when the water is heating, and turns Blue once its ready to use.

### CUSTOMIZED APPLICATION

Conveniently switch between bath and kitchen mode for optimal heating for your intended use. This unique feature helps save energy, thereby saving you money.

RETHINK SAFETY

Equipped with Child-Lock, Double Solenoid Valve, and an Oxygen Depleting Sensor for all round safety for your family. You can even conveniently adjust and view the water temperature with the LED display.

2X  
**SAFETY**

 Available in  White

 <b>OXYGEN DEPLETING SENSOR</b> Safety sensor that immediately turns-off water heating in case of Oxygen depletion in the bathroom to prevent any potential hazard.	 <b>CHILD LOCK</b> This vital feature safeguards against accidents and ensures maximum safety for your children.	 <b>WINTER/SUMMER FUNCTION</b> Easily adjust the temperature according to the weather. It controls the input of gas flow and rate of heating to give you an uninterrupted shower experience.
	 <b>DOUBLE SOLENOID VALVE</b> Advanced feature that delivers twice the safety with two solenoid valves.	 <b>DIGITAL DISPLAY*</b> Sleek digital panel for temperature reading.

**SOLAR**

**ALPHA PLUS/ALPHA PRO**

RETHINK SUSTAINABILITY

With a rustproof outer body and a High Energy Absorption Vacuum Tube, the sustainable and renewable Alpha range solar water heater is made for durability and optimum energy absorption for higher efficiency.

Available in

 <b>INOX</b> Specially treated inner container ensures durability and resistance against corrosion.	 <b>SMART FLOAT*</b> A unique float valve offered only by Racold that eliminates long air vents to ensure safe usage, particularly in high wind velocity areas.	 <b>RUST PROOF BODY</b> A rust proof body acts against corrosion ensuring a longer life of the product and increasing aesthetics.
 <b>HIGH ENERGY ABSORPTION VACUUM TUBE</b> Racold Vacuum Tubes are of 1800 mm length, in line with international standards ensuring optimum energy absorption and higher efficiency.	 <b>MAGNESIUM ANODE**</b> The water heater comes with an anode that prevents corrosion of the inner tank and thus extends its life.

**SOLAR**

**OMEGA MAX 8**

RETHINK SUSTAINABILITY

This sustainable yet stylish water heater ensures renewable and dependable performance. Its state-of-the-art features include MAX 8, which ensures a high pressure withstanding capacity making this solar water heater not only energy efficient, but suitable for pressurised applications as well.

Available in

  <b>MAX 8 PRESSURE</b> High pressure withstanding capacity (up to 8 bar) makes this solar water geyser suitable for pressurized applications.	  <b>DURONOX FOR HARD WATER</b> Prevents tank corrosion and leakage with its specially treated high-grade stainless steel tank that can withstand hard water.	  <b>MAGNESIUM ANODE*</b> The water heater comes with an anode that prevents corrosion of the inner tank and thus extends its life.
  <b>RUST PROOF BODY</b> A rust proof body acts against corrosion ensuring a longer life of the product and increasing aesthetics.	  <b>MULTIFUNCTION SAFETY VALVE</b> With 4 in 1 protection against malfunction, the Multi-function safety valve ensures you have the most secure bathing experience.

**HEAT PUMP**

**HEAT PUMP DOMESTIC**

RETHINK SUSTAINABILITY

A sustainable water heating solution with quick heating that saves upto 70%\* power compared to conventional water heaters. It only uses electricity to transfer heat from one place to another and not to generate heat thereby saving energy. This sustainable water heater is a one-time investment for a lifetime of saving.

 Available in  White

 <b>70%*</b> <b>POWER SAVING</b> A sustainable innovation saves upto 70%* energy by using electricity to transfer heat from one place to another and not to generate heat.	 <b>QUICK HEATING</b> With this option, the heat pump water heater will work on both Heat Pump and Heating Element mode, giving you instant hot water.	 <b>HIGH EFFICIENCY COMPRESSOR</b> This heat pump water heater ensures faster heat exchange, more hot water and increased savings.
 <b>INTELLIGENT CONTROLLER</b> Easily set the temperature and schedule shower timings with the intelligent controller.	 <b>TITANIUM PLUS TECHNOLOGY</b> The titanium enamel coating in the tank prevents corrosion by handling even the toughest water conditions, providing reliable and healthy water for years to come.

\*70% less electricity compared to conventional water heating solutions.
\*Applicable only to 300L as per lab test conditions.

## HEAT PUMP COMMERCIAL

RETHINK SUSTAINABILITY

Our heat pump water heating solutions save upto 70%\* electricity compared to conventional water heating solutions. Commercial Heat Pump Water Heaters are available from 140L per hour<sup>#</sup> (7kW) to 1030L per hour<sup>#</sup> (48kW) output capacities.

## SOLAR COMMERCIAL

RETHINK SUSTAINABILITY

End-to-end technologically advanced hot water solutions for all types of commercial and hybrid applications. We have successful implementations across Residential, Hospitality, Medical & Healthcare Educational Institutes and Industrial Sectors. Applications range from hot water for bathing, laundry, swimming pool, medical equipment, cleaning, industrial cleaning and much more.
